Project Title: Boston Celtics

I am going to build a simple website that navigates Boston Celtics. It will have menu bars that leads to the topics that I have chosen. It will have greenish themes and color schemes to match its team color. I will mostly use pictures that are uploaded in wiki mostly.

- Home page / Intro - brief intro for celtics team
- Franchise history
 - This will determined later
 - Shorten it to three
 - Bill Russell era
 - Larry Bird era
 - Paul Pierce era
- Rivalries
 - Los Angeles Lakers
- Home Arenas
- Players
 - Current roster
 - Head Coach
- Logos and uniforms
